LUC WOLFF / STUDIO WORKS

The so-called STUDIO WORKS generally comprise small-scale works, in contrast to the large-scale WALLPAPERS or the temporary and site-specific works in the space.

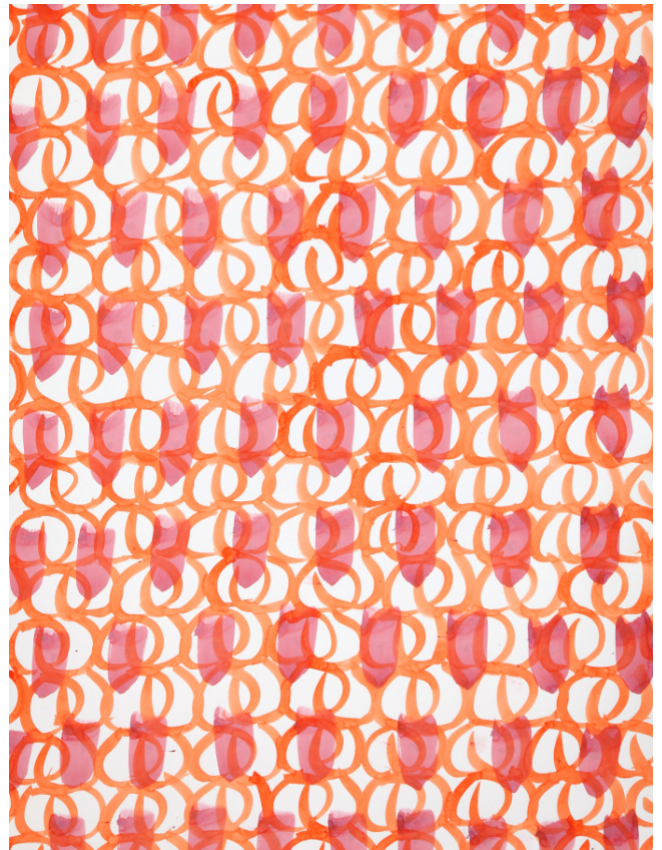

Smaller test series or practice sheets produced during the creation of the WALLPAPERS are called SAMPLES. These works on paper are usually framed, whilst the larger WALLPAPERS are affixed directly to the walls. Acid-free adhesive strips are used for this purpose. The works can be removed from the wall at any time.
