

LUC WOLFF / PUBLIC SPACES

RAUM FÜR FREIRAUM (Space for open space) 2005
Installation at the Lichtenberg City Museum, Berlin

PLACE AU VIDE 1997

Intervention in the central square of Luxembourg City
Exhibition *Place au Vide*, Galerie Erna Hécey, Luxembourg

The title of the project can be understood as the name of an existing, unoccupied space, and can also be interpreted as a call to make room for emptiness.

STARTER KITS contain equipment for cordoning off an area and, depending on the version, materials for decorating with floral arrangements. Purchasers of a STARTER KIT are thus given the opportunity to set up their own free space.

TOWER 2006

Inaccessible tower structure (open at the top), Buried children's treasures.
Primary school campus, Luxembourg-Hamm

A Tower is being built on the school grounds, with no access to the interior. It is open only at the top, towards the sky. Before the walls are erected, the schoolchildren bury little treasures inside, at the base of the tower.

BAUSTELLEN (Construction sites) are set up in public spaces. These areas are cordoned off with standard barrier tape up to two metres high. The barriers suggest that the space could be used for a construction project.

At the same time, so-called STARTER KITS are offered for sale, in the form of a box containing a good hundred metres of red-and-white barrier tape from a DIY store. The STARTER KIT enables the owner to create an open space in any location. The potential attributed to an empty space, to a gap, is elevated to a new level in the form of an (unrealised) project in a box.

PLATZ DA, 2003, Barrier tape
Exhibition *superUmbau*, Hoyerswerda. Curated by Ute Müller-Tischler

The title PLATZ DA offers, in a sense, a space that is available, while at the same time calling for it to be cleared.
